EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Tiep Nguyen on 10 June 2005.

The application has been amended as follows:

Claim 10 is amended to recite, "The method according to claim 23, wherein said reports include predetermined reports."

Claim 23, the preamble is amended to recite, "A computer implemented method of storing and compiling data for analysis and reporting by a financial institution, said method comprising:"

2. The following is an examiner's statement of reasons for allowance:

The prior art of record (The Nuts and Bolts of Toeing the Line, Joseph Radigan) teaches software aimed to provide standard formats associated with mortgage and lending data (page 1). Radigan teaches software comprising a geo-coding function, whereby street addresses are matched with their census tracks (page 2).

The prior art of record fails to teach a computer implemented method of storing and compiling data for analysis and reporting by a financial institution, said method comprising: parsing a first portion of the normalized data so as to form parsed data; geo-coding a second portion of the normalized data and parsed data so as to form geo-coded data; storing a third portion of the normalized data so as to form currently stored normalized data, storing the geo-coded data so as to form currently stored geo-coded data and determining if the currently stored normalized data differs from previously stored normalized data or if the currently stored geo-coded data differs from previously stored geo-coded data as disclosed in the specification, page 19, line 17 thru page 22, line 10. For these reasons claim 23 is deemed to be allowable over the prior art of record, and claims 2-4 and 6-10 are allowable by dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stefano Karmis whose telephone number is (571) 272-6744. The examiner can normally be reached on M-F: 8-5.
